

Abdulrazaq AlSayed Ahmad

✉ abdulrazaqm@hotmail.com ☎ 0538647899 🌐 amussab

PROFILE

I look forward to gaining hands-on experience, contributing to innovative solutions in the fields of AI/ Software Development/or Cloud Computing, and developing professionally in line with the values of excellence and growth. I aim to join the training program during the period between June to August.

EDUCATION

Bachelor of Science in Computer Science

2022 – 2026

King Fahd University of Petroleum and Minerals

- Relevant Coursework: Web Engineering and Design, Artificial Intelligence, Data Structures and Algorithms, Databases, Data Science, Information Security, and Research Work
- GPA: 3.61/4

RESEARCH EXPERIENCE

Undergraduate Research Assistant

2025

Joint Research Center of Artificial Intelligence (SDAIA & KFUPM)

- Collaborated with a research team to study transformers apply them
- We published a research paper as an outcome about Underwater Image Enhancement Using Transformers

PROJECTS

Design and Implementation of a Real-Time Digital Twin for Mechanical System Health Monitoring and Fault Prediction

Senior Project

- A real time digital twin for mechanical systems, enabling predictive fault detection and performance monitoring
- Working on data pipelines and machine learning–based anomaly detection for early failure prediction in order to perform predictive maintenance
- Integrating sensors, embedded systems, and software dashboards for real time system synchronization and analytics

Enjazi

Web Engineering and Design

- Built a website in collaboration with my team to increase productivity among students and employees by enhancing regular todo lists into a more engaging entity
- Contains rooms including text and voice channels to provide a means for communication
- Developed the ability to handle computing resources effectively and efficiently while minimizing wastage

NOTABLE AWARDS

Second place at the Computing Projects Expo 2025

Second Honor Student

KAUST Academy AI program

OTHER EXPERIENCES

Full-Stack Web Development, Penetration Testing, Ethical Hacking, Cryptography, and Cloud App Development

ORGANISATIONS

KFUPM Volunteering Work Unit

Human Resources Manager

Led the HR committee at the university's voluntary work unit, leading a team of 10 members while streamlining the process of applying to various events held by the voluntary work unit
